We can not recommend Simone Harris photography enough, 5 stars does not come close to what this lovely lady deserves! She made us all feel incredibly comfortable (especially my husband who HATES photos, she made him work it haha) and made the day even more enjoyable! She never once made us feel like we were pestering her and was happy to answer my 1000 questions leading up haha. The way she works is so smooth you don't even know she's capturing those beautiful candid shots we all love. Along with her awesome side kick hubs they really are the DREAM TEAM! I promise you, you will not regret working with this gem of a human so lock her down and enjoy looking at her beautiful art work for the rest of your life!! Thank you again and much Love from the van der Helms
